

We will be using data primarily from the following Sources:

- \* Local csv file with Theme Park Locations from <https://latitude.to/>

- \* Foursquare API: We will use the Foursquare API to fetch venues in Orlando starting from the selected theme park Magic Kingdom up to 5 miles in each direction.

- \* Florida COVID-19 Cases by Zip Code exported from the Florida Department of Health GIS Layer on date seen in file name. Archived by the University of South Florida Libraries, Digital Heritage and Humanities Collections.
